

180° Belt bend with zero inside radius

Goods conveyor for cartons, totes, etc.
Belt conveyor, roller conveyor, etc.

Conveyor solutions — are the special field of Max Dörr Förderanlagen GmbH.

Founded 1966 in Gemmingen near Heilbronn Max Dörr can look back with pride on its company development.

In Line with a constant growing demand for conveyors and allied services the company developed through the years from a manufacturer to a turnkey systems provider.

Today Max Dörr Förderanlagen GmbH engineers and manufactures conveyor systems for specific customer requirements. This includes system design, engineering, individual construction and assembly as well as updating the conveyor systems to the ever changing customer requirements.

With a facility including a workshop of modern machine tools and 2.500 m² of production space, Max Dörr Förderanlagen GmbH is geared for the manufacture of conveyor components, complete systems and special conveyors.

Overall, Max Dörr Förderanlagen GmbH concentrates on the use of the latest technologies for integrated and long lasting solutions. The emphasis being on speed, flexibility, innovation and customer specific service.

Belt bend 90°

Telescopic belt conveyor for vehicle loading / unloading

Conveyors for handling steel plattens used on assembly lines in the automotive industry (VW Wolfsburg)
